DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 40, "the securing collars" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 35-37, 39-43, 45-47 and 51 are rejected under 35 U.S.C. 102(b) as being anticipated by Alain (FR. 2799446). Alain discloses, in figs. 1-3, a combination of two containers to form a dispensing unit comprising first and second coupling members 38, 49 arranged fixedly on a pump-actuation button 10; and a reservoir holder 64, 72.

Allowable Subject Matter

5. Claims 17-34 are allowed.
6. Claims 38, 44 and 48-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter:

Claims 17-34 are allowed because the prior art of record does not disclose or suggest a combination of two containers as claim 1 comprising first and second coupling members arranged on securing collars of the first and second containers.
